THE BENEFITS OF THE HEALTH PLUS OF LA MEMBER GUIDE

A formulary is a list of medications that may be covered under your prescription drug plan. This list was reviewed by an independent group of practicing doctors and pharmacists, and it contains medications made by most pharmaceutical manufacturers. It includes medications for many covered conditions.

SAVING MONEY ON PRESCRIPTIONS

Your plan may prefer some medications over others. These are defined by copay levels and have varying copays.

You will pay:

- Copay Level 1 - Lowest co-payment for generic drugs
- Copay Level 2 - Higher co-payment for generic drugs
- Copay Level 3 - Co-payment for preferred brand-name drugs
- Copay Level 4 - Copayment for non-preferred brand-name drugs
- Copay Level 5 - Copayment or Co-Insurance for Injectable Chemotherapy Agents
- Copay Level 6 - Copayment or Co-Insurance for Specialty Drugs

Your doctor may be able to help you save money by prescribing generic and preferred brand-name drugs if appropriate. So be sure to bring this guide with you on every visit to your doctor. Some commonly prescribed non-preferred drugs are also listed in this guide for your reference.

Your plan may also require **PRIOR AUTHORIZATION (PA)** or **QUANTITY LIMIT (QL)** on certain medications. These medications are indicated with a **PA (Prior Authorization)** or **QL (Quantity Limit)** in the Requirements/Limits column on the following pages. The pharmacist will inform you if additional information is needed to determine coverage.

Please note: This guide does not contain a complete list of formulary medications. It only lists the most commonly prescribed drugs. For an updated and complete listing of your prescription formulary, you can visit the member information section at www.healthplus.com and click on Health Plus of LA formulary or the “Benefit Highlights” section at www.medco.com and click on the “View your preferred drug list” link.

FINDING MEDICATION WITH LOWER CO-PAYMENTS

This guide lists medications to help you find some generic, preferred, and non-preferred brand name drugs. Medications are listed alphabetically by category. Within each category, drug names are listed in alphabetical order.

After each non-preferred brand-name drug, you will find possible generic and preferred brand-name alternatives.

This information is in effect at the time of printing, and may be subject to change. In some cases, your health plan may not cover certain medications listed in this member guide.
